

Grow Your Digital Legacy Growth Plan

~ Worksheet ~

By Aaron Larsen, "The Grateful Grandson"

Founder of **GrandparentsAcademy.com**

Congratulations on taking this first step towards growing your digital legacy. I can't emphasize enough how important you are as a grandparent. Your grandchildren need you now more than ever, especially in the digital world. By learning how to use the technology readily available to us today with intent and purpose, you will grow meaningful relationships and rich legacies with your loved ones in ways you've never imagined! I created the Digital Legacy Gardening™ process to help you get there. Step one is to draft a solid plan. This worksheet and free training series is my gift to you to help you get started. Let's begin!

Gratefully yours,

~Aaron

P.S. - The more the merrier! Don't forget to help your grandparent friends connect with their loved ones online by sharing this free training series with them. Just send them to GrandparentsAcademy.com so they can sign up to watch the videos and receive emails from me that will guide them through the process.
